What's Needed

A Veterans Community
Presence and Transition
Space on Capitol Hill

The Vision

HillVets, with your continued support, will continue our efforts to build and strengthen the veteran community in the heart of our nation's capital on Capitol Hill. Within walking distance of the Capitol, HillVets will create a new HillVets House that will provide housing, training, and placement assistance to veterans who are launching careers in policy and government, will provide entertainment space for the veteran community and its partners, will provide administrative space for the HillVets team, and will provide co-working space for HillVets program-participants and alumni.

HillVets House will be a place that our veterans can call home while participating in HillVets programs and will serve them as a second home only steps away from the Capitol as they progress in their careers.
